Privacy and security policy

Personal Information

To offer you a life insurance policy, Pinnacle Life asks you to provide personal information via its website relating to your identity, state of health and credit card or bank details. We assure you that this information will only ever be used in relation to offering you a life insurance policy and then managing that policy. We will not make your details available for any other purpose. None of your personal details will ever be sold, rented or made available to any party not directly related to offering you a policy or managing that policy. Within Pinnacle Life, your personal details will only be accessible to authorised staff operating within strict guidelines. Besides our staff we'll occasionally make information available to registered financial advisors in order to give you advice you may need. You're entitled to access any information we hold about you. Just contact us.

Emails you send to us

Messages you send to our customer support team are private between you and Pinnacle Life. However, emails can be intercepted so please don't include banking details in an email.

Your security answer

When you buy a policy, we ask you to choose a security question. This enables us to verify your identity should you contact us at a later date. You are responsible for protecting your answer. Choose a question and answer that others will not know and do not disclose this information to third parties. If you do, you'll be responsible for how these third parties use your password.

The secure server encrypts your information before transmitting it across the internet, rendering it entirely safe from prying eyes. The third party we use to provide this secure server is Rapid SSL, see their [website](#) and their [privacy policy](#).

If you choose to pay by credit card then a third party, Direct Payment Solutions (DPS) will check the validity of your card and will deduct your payments on behalf of Pinnacle Life. See their [privacy policy](#).
